PROJECTS

Amazon Website Clone
<https://github.com/Fareehanoor/Amazon-Clone-Using-Html-and-css>
This is a web development project aimed at replicating the basic functionality and design of the popular e-commerce platform Amazon using HTML and CSS.

Usability Hub Website Clone
https://github.com/Fareehanoor/UsabilityHub_clone_website
This project is a clone of UsabilityHub, a platform for conducting usability tests, surveys, and other user research activities. It provides a user-friendly and responsive web application built using HTML and CSS, offering similar functionalities to the original platform.

Weather App Using HTML ,CSS and Javascript
<https://fareehanoor.github.io/Weather-App-By-Fareeha/>

Weather-App-By-Fareeha
This is a simple and user-friendly weather application that provides real-time weather information for a specified location. The app is built using HTML, CSS, and JavaScript, making it accessible and easy to use for a wide range of users.

Quiz App Using HTML , CSS ,Javascript
